Item 130 – Fuel Cost Price Adjustment Surcharge

A fuel surcharge will apply to all net transportation charges including, but not limited to, linehaul transportation and pick-up and delivery from storage and is described below:

1. On the first Monday of each calendar month, the "national U.S. average" price per gallon of diesel fuel will be determined based on the price stated by the U.S. Department of Energy (DOE), Energy Information Administration's (EIA) survey of "Weekly On-Highway Diesel Prices." This price will be obtained by calling the DOE Fuel Hot Line at 202-586-6966 or via the DOE Internet web site at www.eia.doe.gov.
2. If the first Monday of the calendar month is a Federal holiday, the price will be determined based on the stated DOE price available on the next subsequent business day (Tuesday).
3. The DOE fuel price obtained will then be indexed based on the fuel price/adjustment factor matrix set forth in this item to determine the Fuel Cost Price Adjustment that will become applicable on the fifteenth (15th) day of the same month. The adjustment determined will apply for shipments picked up beginning on the 15th day of the month and remain in effect through the 14th day of the subsequent following month starting from the effective date of this item.
4. To determine the Fuel Cost Adjustment amount to apply, multiply the applicable linehaul transportation charges as determined in accordance with Sections 2 and 3 of this tariff, by the percentage Fuel Cost Adjustment Factor. The resulting charge is in addition to all other applicable transportation charges.

Note 3: Fractions obtained in the calculation of the fuel cost adjustment factor will be disposed of as provided in Item 160 of this tariff.

Note 4: If the DOE fuel price per gallon exceeds \$5.630 per gallon, the 45% fuel surcharge, subject to the above provisions, will be increased by an additional 1% for every 10 cents per gallon increase in the price above \$5.630 per gallon.

Note 1: This charge includes carrier’s services for clearance but DOES NOT include the cost of any other service to be required to be performed by third persons. If customs clearance requires that any cargo be unloaded from the van and reloaded on the van, such service will be provided by carrier at the labor rate of \$40.00 per hour per person.

Note 2: Transportation charges on shipments requiring United States Customs Clearance at a point other than final destination, will be assessed on the mileage from origin to final destination via the required United States Customs Clearance office.

In case of loss or damage to a portion of the contents of a shipping package, the amount recoverable will be the released value per pound multiplied by the gross weight of the package, but not more than the actual loss or damage.

The declared full value must be entered on the shipping order and bill of lading in the following form (or similar wording):
